Career Objectives

As a proactive Frontend Engineer skilled in React.js, Next.js, and SEO-friendly design using Tailwind, Bootstrap, MUI, and Ant Design, I aim to transition into a full-stack role by mastering Node.js and MongoDB. My next goals are to learn React Native and explore DevOps, driven by my passion for continuous learning and innovation.

PROFESSIONAL EXPERIENCE

Frontend Developer, Canada 777

2023 — Present | Full-Time | Dhaka, Bangladesh

UI/UX Design Implementation: Using Tailwind CSS, Bootstrap, Ant Design, and Material UI (MUI) to create visually appealing and responsive designs.

Building User Interfaces: Developing interactive and user-friendly interfaces with React and Next.js.

Component Development: Create reusable components that enhance the efficiency and maintainability of the codebase.

API Integration: Connect the **Frontend** with **Backend** services through **RESTful APIs**, ensuring seamless data flow.

State Management: Utilize state management tools like Redux or Context API to manage application state.

Performance Optimization: Enhance page load times and overall performance through code-splitting, lazy loading, and other techniques.

Collaboration: Work closely with Designers, **Backend** developers, and other stakeholders to deliver cohesive projects.

Testing and Debugging: Implement unit tests and debug issues to ensure high-quality, error-free applications.

SEO and Accessibility: Optimize applications for search engines and ensure they are accessible to all users.

MY CREATIVE WORKS

Funnel Liner (SaaS) [🔗](#)

Description: Funnel Liner is a platform for creating and automating sales funnels, websites, and landing pages without coding. It features a drag-and-drop editor, bulk SMS marketing, order and inventory management, and comprehensive sales tracking.

Role: Frontend Developer & Designer at Funnel Liner

At Funnel Liner, I play a pivotal role in shaping the digital presence of our platform. My responsibilities include:

-- **Comprehensive Site and Dashboard Design:** Crafted and developed the entire site and dashboard interfaces, ensuring a seamless user experience.

-- **High-Volume Landing Page Creation:** Designed and launched over 50 one-page landing pages and 2 multi page websites.

-- **Client Customization's and Support:** Assisted clients with custom single-page designs and addressed their specific needs efficiently.

-- **Advanced Front-end Development:** Utilized React.js, Next.js, and Material UI (MUI) for dynamic website and dashboard development.

This role allows me to blend creativity with technical expertise, delivering top-notch digital solutions and support to our clients.

Bangladesh University (CSE department) [🔗](#)

Description: The website for the CSE Department at Bangladesh University provides comprehensive information about the department, including details about faculty, research activities, curriculum, and campus life.

Role: Team Leader & Front-end Developer at Bangladesh University's CSE

Department

At Bangladesh University's CSE Department, I spearheaded a web redesign project as a team leader. Collaborating closely with the head of the department, I ensured their vision was met with a high-performance, user-friendly website. My role included:

-- **Leadership & Collaboration:** Discussed and aligned project goals with the department head.

-- **Innovative Development:** Implemented advanced frontend solutions using React and Next.js.

-- **Enhanced Online Presence:** Developed an [Alumni website for CSE](#) students, boosting engagement and connectivity.

This project showcases my ability to lead, collaborate, and execute high-quality web solutions.

I've worked on numerous creative projects that demonstrate my skills and expertise. While I can't list all of them here, you can explore more of my work on

[My Website](#). It showcases a wide range of projects that will give you deeper insight into my abilities and what I can bring to the table.
